

--- Description ---

The Admin-Interface you see if you login with an admin-account.
There you have several options to administrate the Internet Access.

You can de- and activate an user-account, add time to an user, accept or denied Time-Requests and look which account is online.

In this Admin-Interface is no option to decide who is an Admin or give an account unlimited access to the Internet.

--- Main Page (Active Userlist) ---

This is the main page for the administrator. Here you can click throw the tabs to see the other pages and if you click on one user you can manage the user-details.

The Frame **Set Time** refresh every five seconds and show all users who has send a Time-Request. There you can change the time if it's necessary and click **Okay** or **denied**.

The list shows you all active user-accounts with the given times (maybe not used time)
